<i>Title:</i>	NOTICE OF PRIVACY PRACTICES

THIS NOTICE DESCRIBES HOW HEALTH INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU MAY ACCESS THIS INFORMATION.

Please review it carefully.

WHO WILL FOLLOW THIS NOTICE

This notice addresses the use of your health information by Adam Geyer MD PC dba Tribeca Park Dermatology (the “Practice,” “we” or “us”) and its business associates.

We may use your health information, also known as protected health information (“PHI”), for treatment, payment, operations, or research purposes as described in this notice. All employees of the Practice follow these privacy practices. Our staff will also follow this notice when they furnish professional services to you on behalf of the Practice.

ABOUT THIS NOTICE

This notice will tell you about the ways we may use and disclose health information about you. We also describe your rights and certain obligations we have regarding the use and disclosure of health information.

We are required by law to:

- make sure that health information that identifies you is kept private;
- give you this notice of our legal duties and privacy practices with respect to your health information;
- follow the terms of the notice that is currently in effect; and
- notify individuals, either known or reasonably believed to be affected, following a breach of unsecured protected health information.

HOW WE MAY USE AND DISCLOSE HEALTH INFORMATION ABOUT YOU

The following categories describe different ways that we use and disclose health information. For each category of uses or disclosures, we will explain what we mean and give examples. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one or more of the categories.

- **For Treatment.** We may use health information about you to provide you with medical treatment or services. We may disclose health information about you to doctors, nurses, technicians, medical students, or other Practice personnel who are involved in your care. Different departments and personnel of the Practice also may share health information about you to coordinate the different services you may need. We also may disclose health information about you to people outside the Practice who may be involved in your care.
- **For Payment.** We may use and disclose health information about you so that we may bill for treatment and services you receive at the Practice and collect payment from you, or another party. We may also, as necessary, tell your health plan about a treatment you are

going to receive to obtain prior approval or to determine whether your plan will cover the treatment. We may also disclose information about you to other healthcare facilities for purposes of payment as permitted by law.

- **For Healthcare Operations.** We may use and disclose health information about you for operations of the Practice. These uses and disclosures are necessary to run the Practice and make sure that all our patients receive quality care. For example, we may use health information to evaluate the performance of our staff in caring for you or the outcome of your treatment. We may also combine health information about many patients to decide what additional services the Practice should offer, what services are not needed and whether certain new treatments are effective. We may also combine health information we have with health information from other facilities to compare our performance and to make improvements in the care and services we offer. We may also disclose information to doctors, nurses, technicians, medical students and other Practice personnel for educational purposes. We may also disclose information about you to other healthcare facilities as permitted by law.
- **Appointment Reminders.** We may use and disclose health information to contact you to remind you that you have an appointment for treatment or medical care.
- **Treatment Alternatives.** We may use and disclose health information to tell you about possible treatment options that may be of interest to you.
- **Health-Related Benefits and Services.** We may use and disclose health information to tell you about health-related benefits or services that may be of interest to you.
- **Individuals Involved in Your Care or Payment for Your Care.** We may release health information about you to a friend or family member who is involved in your care. We may also give information to someone who helps pay for your care. In addition, we may disclose health information about you to an entity assisting in a disaster relief effort so that your family may be notified about your condition, status and location.
- **Research.** In certain circumstances, we may use and disclose PHI about a patient for research purposes. For example, a research project may involve comparing the health and recovery of all patients who received one treatment to those who received another for the same condition. All research projects, however, are subject to an approval process. This process evaluates a proposed research project and its use of PHI to balance research needs with patients' needs for privacy. Before we use or disclose PHI for research, the project will be approved through this process. However, we may disclose health information of a patient to people preparing to conduct a research project, for example, to help them look for patients with specific medical needs, so long as the PHI they review does not leave the Practice premises. When required by law, we will ask for specific written authorization if the researcher will: (i) have access to a patient's name, address or other information that reveals who the patient is, or (ii) be involved in patient care at the Practice.
- **As Required by Law.** We will disclose health information about you when required to do so by federal, state or local law.

- **To Avert a Serious Threat to Health or Safety.** We may use and disclose health information about you when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person.
